

## **80% of NISC Journals now indexed in Journal Citation Reports®!**

Earlier this year NISC announced that *Quaestiones Mathematicae* and *Southern Hemisphere Forestry Journal* (now *Southern Forests: a Journal of Forest Science*) had joined *African Journal of Marine Science* and *Ostrich: Journal of African Ornithology* in being listed in Thomson Reuters's Journal Citation Reports® (JCR) and Science Citation Index Expanded™. In keeping with these excellent results we are able to announce the addition of four more NISC titles to this list: *African Journal of AIDS Research*, *African Journal of Aquatic Science*, *African Journal of Range & Forage Science* and *Southern African Linguistics and Applied Language Studies*.

The JCR is the world's leading authority for evaluating the impact and influence of the world's foremost research journals and, among other data, presents the widely used journal impact factors.

The *African Journal of Marine Science* has a 2007 JCR impact factor of 0.728, and that of *Ostrich* has increased to 0.353. We are looking forward to the results for the newly added titles.
